Admin must have a Google Account to proceed further. The steps to be followed for this are:

1. Admin must login into their **Google Account** and then visit <https://www.google.com/recaptcha/about/>.
2. The admin will be redirected to **Google reCaptcha** page as shown in figure 2.

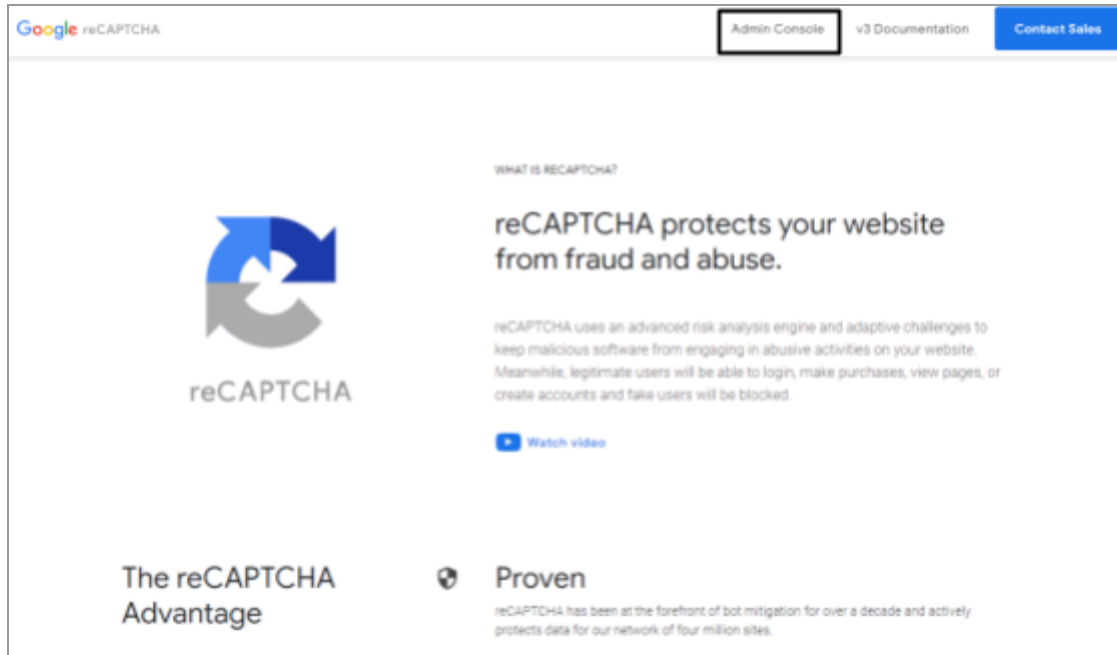

Fig. 2: Google reCaptcha Homepage

3. Admin must click on '**Admin Console**' provided on the top-header of the page as marked in figure 2. The '**Register A New Site**' form will open as shown in figure 3 in which the admin must:
  - **Label:** Enter label as per the provided format.
  - **reCaptcha Type:** Select the '**reCaptcha V3**' option.
  - **Domains:** Add the domains as per the provided format.
  - **Owners:** Enter the email addresses to be linked.
  - **'Accept the reCaptcha Terms of Service' Check-box:** Select this check-box to accept the terms of service.
  - **'Send Alerts to Owners' Check-box:** Select this check-box if they wish to receive alerts.

Admin must click on the '**Submit**' button to finish registering the new site.

The image shows the 'Register a new site' form in the Google reCAPTCHA interface. The form is titled 'Register a new site' and includes several sections: 'Label' with a text input field containing 'e.g. example.com' and a character count of '0 / 50'; 'reCAPTCHA type' with two radio button options: 'reCAPTCHA v3' (Verify requests with a score) and 'reCAPTCHA v2' (Verify requests with a challenge); 'Domains' with a plus sign and the text 'Add a domain, e.g. example.com'; 'Owners' with the email 'testadmin@dummyid.com' and the label '(You)', plus a plus sign and the text 'Enter email addresses'; a checkbox for 'Accept the reCAPTCHA Terms of Service' with a dropdown menu for 'reCAPTCHA Terms of Service'; and a checked checkbox for 'Send alerts to owners'. At the bottom, there are 'CANCEL' and 'SUBMIT' buttons.

Fig. 3: 'Register a New Site' Form

4. Clicking on the **'Submit'** button will open the **'Adding reCaptcha to Your Site'** page as shown in figure 4.

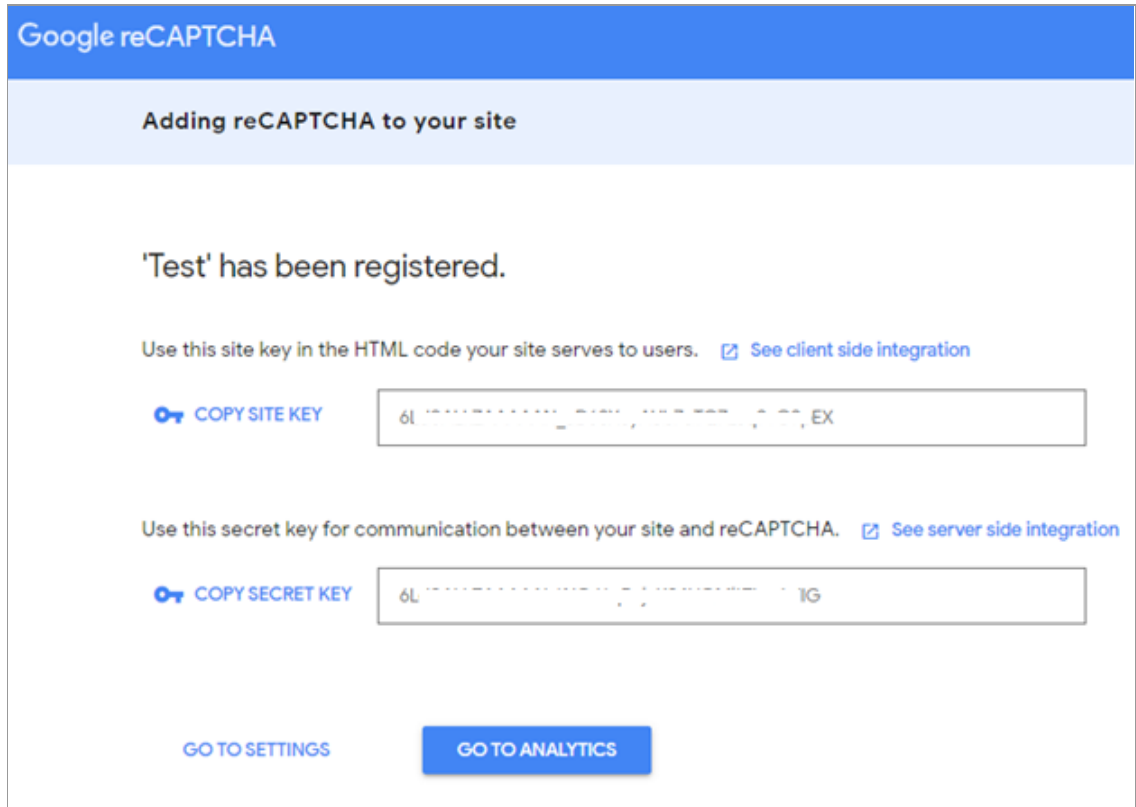

Fig. 4: Adding reCaptcha to Your Site

The admin must click on the **'COPY SITE KEY'** and **'COPY SECRET KEY'** buttons provided to the left of provided fields one-by-one to copy the keys and paste them in the respective input fields provided in admin settings on their dashboard ([Figure 1](#)).

**Output at front-end:** The reCAPTCHA is embedded by Yo!Rent on following landing pages-

- Contact Us,
- Forgot Password,
- Payment Checkout page,
- Blog contribution page (<domain>/blog/contribution-form)
